All piping shall be tested after assembly either before appliances are connected or after appliances are connected in accordance with at least one of the following methods:

(a) *Before appliances are connected.*

Piping systems shall be tested with a pressure of at least 3 psig or one and one-half times the working pressure, whichever is the greater, and shall retain the test pressure for not less than ten minutes. We, Her Majesty's most dutiful and faithful subjects, the Legislative Assembly of the Province of Ontario, in Session assembled, approach Your Honour with sentiments of unfeigned devotion and loyalty to Her Majesty's person and Government, and humbly beg to present for Your Honour's acceptance a Bill intituled, "An Act for granting to Her Majesty certain sums of money for the Public Service for the fiscal years ending the 31st day of March, 1962, and the 31st day of March, 1963".

To this Act the Royal Assent was announced by the Clerk of the Legislative Assembly in the following words:—

"The Honourable the Lieutenant Governor doth thank Her Majesty's dutiful and loyal Subjects, accept their benevolence and assent to this Bill in Her Majesty's name."

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of The Legislative Assembly of Ontario:

When I have finished these remarks, the 3rd Session of the 26th Parliament of Ontario will have become history and will no doubt be studied at great length by the chroniclers of the future. The work you have done at this Session will thus endure as long as the records of our province. For the second year in a row, the Session began in November and, after an adjournment over the Christmas holidays, continued in the new year. This arrangement has enabled you to undertake a comprehensive review of the various matters with which the Government is concerned, including legislation and the departmental estimates, but these long months of the Session have meant an increased burden of work on you. For your conscientious labours, I express my thanks to the Honourable Members.

The matters that you have considered, and the resulting legislation and provision of funds, have, as in the past sessions, enhanced the welfare and security of our human resources—the great people of our great province—and the development of our material resources, and reflect the rapid growth of our province and the needs and difficulties that are associated with industrial and resource expansion. No additional taxes were needed this year to carry out the government's program; rather, a few reductions in several areas have been possible.

The part of the government's program that was devoted to the betterment of our people—the promotion of their welfare and the furthering of their opportunities by way of education, health, security, municipal, human rights, labour and reform measures—has been a most comprehensive one, anchored on the achievements of the past and based on the needs of the present and the requirements of the future.

The prime importance that the province places on education has once again been stressed in your deliberations. The great increase in the number of students in our elementary and secondary schools has once more required the voting of large sums of money to assist our municipalities in meeting the costs resulting from this influx. For the current fiscal year, you have voted for the Department of Education the huge sum of \$330 million, an increase of \$60 million over the expenditures of the fiscal year just finished. Included in this total are the usual large amounts for general legislative grants to the School Boards throughout the province. In addition, provision was made, by the appropriation of \$16 million, for the second stage in

the government's three-year grants program to reduce the burden of local educational levies on the home and farm owner. To carry forward the re-organization of the secondary school system, you have included funds for the extensive building program which has been set in motion to enlarge our various technical training facilities. None of this expansion will involve the municipalities in capital costs. The creation of new universities in the province has been carried a step further with the granting of university status to the Lakehead College of Arts, Science and Technology. Large sums have been supplied to carry out the government's program of ensuring equal educational opportunities for all in post-Grade XIII work by means of bursaries, scholarships and loans. By the voting of \$2¼ million for our public libraries, the Honourable Members indicated their interest in the development of this important aspect of our educational system. You have approved plans and provided funds for the expansion of our physical fitness program, to tie in with the federal activities in this field. You have passed amendments to a number of statutes relating to education, to clarify the legislation and improve the working of the administrative set-up. Highlighted have been amendments to The Department of Education Act, to provide for the registration of private schools and for their possible inspection, and to The Schools Administration Act, to authorize the appointment by a school board of a business administrator if desired. You have altered The Public Schools Act to clarify the situation regarding the election of trustees by wards, where this is desired, and to deal with certain features of school administration in territories without municipal organization. The statutes have been changed to set out the requirements that a school trustee must in future be a Canadian citizen. You have amended The Secondary Schools and Boards of Education Act to double the amount that a board, under the Act, may spend from current funds on permanent improvements, and to revise the composition of advisory vocational committees.

A wide variety of health measures have been given your earnest consideration. You have approved funds for additional construction work on our network of mental hospitals. The House has provided for the emergency admission of disordered persons to these hospitals. The provision that the Honourable Members made for establishing the Air Pollution Advisory Committee will lead to a strengthening of control measures to reduce air pollution. Changes have been made in the set-up of the ruling body of nurses so that registered nurses and certified nursing assistants together comprise a College of Nurses, which will be administered by a Council composed of a representative of the Department of Health and members of the nursing profession. You have passed legislation to set up the College of Optometrists and to strengthen The Ophthalmic Dispensers Act. To strengthen the protection given to the public, legislation was passed to control the sale of prearranged funeral contracts.

In addition to the regular amounts voted for its various expenses and for grants to the public hospitals, the large additional sum of \$57½ million has been set aside as a contribution to the Ontario Hospital Services Commission so that hospital insurance rates may be maintained at their present level. This figure also includes funds for the recently inaugurated extension of outpatient services. You have enabled several new types of hospitals to come under the Commission for the purposes of insured services. The members of the Committee on Health were apprized of the steeply rising costs of our hospital insurance program, because of the increase in hospital care being given patients since the adoption of the plan and the rising salaries being paid to hospital staff, and were informed of the further large funds that will be needed for the plan's operation in future years.

Welfare provisions for families and individuals have again been thoroughly studied and the additional \$5 million provided this year to meet these expanding needs indicate the extent of the province's activities in this field. You included in this amount funds to permit an increase in Old Age Assistance to \$65 a

month from the rate of \$55 a month which was recently in effect, in accord with the changes introduced by the Federal Government as well as to raise pensions for blind and disabled persons by the same amount. Amendments were made to The Child Welfare Act to improve the conditions of the children covered by this legislation. To facilitate the construction of Homes for the Aged, to strengthen their management and to clarify the rights of their residents, you authorized changes in the relevant statute. To promote the development of social centres for elderly persons, the Honourable Members made provision for aiding them through provincial grants.

The Technical Committee on Portable Pensions met a Committee of the whole House in order to discuss the Portable Pensions Bill, which has been given first reading, with the intention of permitting a full and complete consideration of all aspects of the proposal by the various segments of our population before further moves are made, preferably in co-ordination with the Federal Government.

To help meet the obligations laid on the municipalities as a result of rapid population growth and industrial expansion, the Honourable Members have again approved an increase in municipal grants and this fiscal year, the province's grants to our municipalities and their agencies, including school boards and other local agencies, will total \$425 million, an increase of \$50 million over last year, and nearly 3½ times the amount appropriated for these purposes just ten years ago. Extensive amendments to a large number of municipal Acts have been approved, in order to bring municipal procedures up to date. The Assessment Act has been clarified and modernized, as has The Local Improvement Act. The extensive changes which the House has approved to The Municipal Act have revised and clarified the qualification of tenants as candidates for municipal office, modernized the procedures for nominations and for filling vacancies, made provision for persons prevented from voting on the polling day because of religious reasons, greatly strengthened the provisions dealing with disclosure of interest on the part of a member of a council, widened the permission for setting up boards of control, strengthened the authority of municipalities with regard to industrial sites and given discretion to municipal councils in respect to most store closing hours. You have given the Department of Municipal Affairs authority to set aside a revised assessment roll where it is inequitable. The House has shown its continued strong interest in the Metropolitan Toronto set-up by amending the relevant Act to further the union of local municipalities if they wish to combine, and to provide a further orderly amalgamation by vesting all signal-light traffic controls in the Metropolitan Council. The interest of the Honourable Members in the working conditions of the municipal staff in the province is indicated by the establishment of the Municipal Employees Retirement System, in order to enable the provision of an integrated pension set-up, with provincial assistance, for all municipal employees in Ontario. You have approved changes in The Planning Act to enable tighter control of zoning by-laws in accordance with local conditions. To increase the sums available to the province for the purpose of purchasing municipal debentures under The Tile Drainage Act and to increase the amount that a municipality may lend to home owners under the Act, you have passed amendments to this effect.

Our reform system received the earnest consideration of the Members of the House. You voted funds to put the finishing touches to the Lindsay Training School for Girls and to complete work on the Simcoe School for Boys. Increased funds were provided for the operation of the various reformatories and training schools. By amending The Training Schools Act, you provided for improved supervision after a ward leaves a training school until the wardship ends. The difficult situation in respect of the joint provincial-municipal authority over municipal jail staff was resolved by transferring this personnel to municipal control and by providing a provincial grant amounting to 10 per cent of the cost of operating a municipal jail.

The House has approved an increase in funds to permit the Department of the Provincial Secretary and Citizenship to expand its work of assisting new arrivals in Ontario to find their way in their new environment and of helping them with their language and other problems that may from time to time arise.

Human rights were, as in many years in the recent past, the subject of earnest discussion among the Honourable Members. The Ontario Human Rights Code was passed to combine the various anti-discrimination measures which previously had been set out in separate statutes, and to provide for improved administration of the legislation.

Extremely important contributions to the progress of labour have been made in a number of statutes dealing with the interests and rights of workers. You have carefully considered and passed legislation to provide greater protection for employees in the construction industry. Extensive measures were introduced to provide for greater safety for our workmen. The Labour Safety Council was set up, with the function of advising the Minister of Labour upon any matters involving the safety of the workers of the province. The Construction Safety Act, which replaced The Building Trades Protection Act, is designed to better ensure the safety of workmen during the construction of various structures, and includes provision to permit standards of safety to be set out. The Honourable Members passed amendments to The Elevators and Lifts Act and The Construction Hoists Act to strengthen safety measures under these statutes. The rights of workers, as set out in The Master and Servant Act, were extended. The provisions of The Hours of Work and Vacations with Pay Act were tightened, to afford greater protection to our workers. The very important Report of the Royal Commission on Labour-Management Relations in the Construction Industry in Ontario received the deliberation of the Honourable Members. To meet the requirements of the public interest in the dispute between the Hydro-Electric Power Commission and its union, the House provided for the appointment of an arbitrator to resolve the situation.

A broad new housing program has been given the approval of the House, to encourage the development of more Federal-Provincial rental housing units and to help resolve the housing problems with which we are faced in an era of population expansion. Plans to assist in the rehabilitation of houses in sub-standard areas, and to encourage the construction by private groups of housing for rent and owner-occupancy, for low-income families and the physically handicapped, as well as plans to sponsor improvements in low-cost housing design by means of research and educational grants, have been approved in amendments to The Housing Development Act. In particular, a rent certificate scheme has been initiated on an experimental basis in Metropolitan Toronto—the first such scheme undertaken in North America.

To promote a continuation of the expansion which has been such a marked feature of the post-war years and to further the economic progress of the province so that it can meet the challenging days ahead, the Members of this Legislature approved a comprehensive program of economic action. In approving legislation merging the former Departments of Economics and Commerce and Development into the new Department of Economics and Development, you indicated the need for bring into a closer union the two government departments which have been active in promoting our industrial and commercial growth. The Ontario Economic Council has been set up to stimulate all phases of economic development and to bring management, labour, agriculture and government into a working partnership in order to effectively promote and co-ordinate our expansion. Committees of the Council have been appointed and studies are already under way on various facets of our economy, including agriculture, tourism, northern development and industrial development. Grants to the Ontario Research Foundation have been increased to provide for special studies to

promote the greater productivity of our economy. The Minister of Economics and Development also presented for your approval a program of market expansion both at home and abroad, trade missions, and foreign service expansion, including the establishment of a Trade Office in Europe to service the European Common Market area.

The House has been aware of the difficulties of seasonal unemployment which, because of climatic conditions, is a perennial problem in our economy, and has continued the programs of winter works which the government initiated four years ago as a Provincial-Municipal measure and which is now operated on a Federal-Provincial-Municipal basis. The seasonal employment programs have been expanded and this year over 21,000 people will have been given work in their various phases. The programs not only enable special, major municipal construction and maintenance work to be carried out during the colder months, but also involve, through Federal-Provincial sharing, winter work in our parks and picnic areas. You have made provision for a further \$10 million for the municipal part of the program during the present fiscal year.

As part of the overall program for the continued economic development of the province, you have approved the many steps being taken to further the expansion of our great heartland of Northern Ontario. A committee on Northern Development has been set up to consider the needs and problems of that part of our province. You have voted funds to build a \$7 million extension of the Ontario Northland Transportation communications system and to provide a survey of the operations of that Commission. In addition, you have approved monies for many new highways and public works in the north.

In connection with our energy and fuel sources, the House has passed legislation which, by amalgamating the Hydro-Electric Power systems, permits a more economical operation of our electrical plants in the various parts of the province and ensures, particularly to the residents of our northland, a greater stability of power while maintaining a reasonable rate structure. You have appropriated funds to enable the Department of Energy Resources to continue its survey of the province's energy and fuel resources. In order to permit a clarification of its rate-fixing provisions, you have passed amendments to The Ontario Energy Board Act. You have amended The Energy Act to broaden its coverage and to clarify its provisions generally.

The development of our great natural resources of land, minerals and forests, has been fostered by the measures you have approved and the monies you have voted.

Agriculture received the usual sustained attention from the Honourable Members. To improve the educational facilities available for our farming population, you legislated to unite the three agricultural colleges at Guelph under one administration and to set up the Agricultural Research Institute to co-ordinate the various research projects which are being carried out by all institutions operating under the Department of Agriculture. The House also provided funds for the construction of additional college buildings. You approved broader coverage under The Co-operative Loans Act, to provide further stimulation for our co-operative farm associations. The members, by amending The Horticultural Societies Act, eased the requirements for grants to such societies. You strengthened the powers of The Farm Products Marketing Board to provide further protection to the great majority of our farmers who operate the various local marketing plans. The Milk Industry Act amendments which you passed authorized butterfat price differentials for cream and milk.

Further steps to protect the consumers of this province were taken by the Members of the House when they amended The Dead Animal Disposal Act to provide for the effective identification of meat from dead animals and to prohibit the sale of such meat for human consumption.

The extensive amendments that you passed to The Mining Act provide for the better administration of our mineral resources and bring sections of the Act into line with modern mining practices. Funds have been provided for a greater number of geological survey parties in order to increase the knowledge of our potential mineral resources and to provide the groundwork for further mine developments throughout the North.

The House has provided additional funds and has passed legislation to enable the Department of Lands and Forests to expand various aspects of its extensive programs of forest management, fish and wild-life activities and park development, and to continue its research in these fields. You have provided funds for the acquisition of additional provincial parks and the continued development of the existing ones, and amendments to The Public Parks Act were passed to enable a greater development of municipal parks. By passing The Game and Fish Act, 1961-62, you completely revised the former Act, in order to simplify its provisions and to set up modern, up-to-date administrative practices. Your amendment to The Public Lands Act confirms the policy of setting aside as public reserves 25 per cent of the remaining public lands fronting on water. You have provided for more effective agreements for forest fire prevention and control.

In line with the Government's policy of expanding our system of conservation areas for the benefit and use of our people, you have approved various amendments to The Conservation Authorities Act. The large sum of \$4.5 million has been appropriated to enable the work of our conservation authorities throughout the province, in the way of flood control and other activities, to be carried out successfully. Included in this amount were funds to go towards the \$39 million flood control and water conservation program of the Metropolitan Toronto and Region Conservation Authority.

The province's program for the conservation of our water supplies and the abatement of sewage pollution was also intensified by your approval of large sums for the purposes of the Ontario Water Resources Commission. You have amended the relevant Act to strengthen the position of the Commission in its water supply and sewage disposal work.

The tourist industry and its problems have received the consideration of the House. You have voted additional funds for the Department of Travel and Publicity, including sums to continue the system of grants to regional tourist associations.

In your deliberations, the operations of our highways and the problems associated with the ever-increasing number of vehicles that use them have been to the forefront. You have voted nearly \$265 million for the expansion and maintenance of the public routes throughout Ontario, including assistance for municipal roads. As part of this vast sum, there have been set aside funds for further work on our great trans-Provincial Highway, 401, and for construction on Highway 403, the Hamilton By-pass, and on Highway 405, between the new Queenston Bridge and the Homer Skyway. At the same time, work on the Trans-Canada Highway is being continued, and construction is being accelerated on the Fort Frances Causeway and the road to Atikokan. You have provided funds for a number of access roads to open up our resources in the North. An amendment made to The Highway Improvement Act enables the province to increase to 90 per cent its contribution towards the cost of bridges and culverts on streets designated as connecting links between Queen's Highways in most towns and villages with over 2,500 residents.

You have promoted highway safety by revising The Highway Traffic Act. The House has given long consideration to the workings of the Unsatisfied Judgment Fund and as a result of its deliberations, The Motor Vehicle Accident Claims Act was passed, to set up a new fund with a completely revamped system of payments, including provision for payments out of the new Fund in three ways where damages

are caused by uninsured vehicles: where there is a settlement without a judgment, where a judgment has been obtained, and where a judgment has been obtained in hit and run cases. You have amended The Highway Transport Board Act to expedite the work of the Board concerned and to revise the provision for appeal. Your modifications to The Public Commercial Vehicles Act have greatly strengthened the existing controls over such vehicles.

Nor has our highway system been the exclusive form of transportation considered by the House, for Metropolitan Toronto has been assisted in its huge subway construction program through the provision of the first \$10 million, out of an amount which will total \$60 million, for the purpose of buying debentures that the municipality issued for subway purposes. This assistance will result in the completion of this subway several years earlier than would otherwise have been possible.

In the field of law enforcement and related matters coming under the jurisdiction of the Attorney General, you have passed many measures—45 in all—to modernize the working of our entire system of justice. From the standpoint of administration, the most important of these were the nine Bills which arose from recommendations contained in the report of the Attorney General on the jurisdiction of county and district courts. These statutes will improve the workings of our Court system at all levels and in particular the County and District Courts. Other Acts were approved which ranged in their scope from amendments dealing with Loan and Trust Companies, Mortgage Brokers, Mortgages, Coroners, discrepancies in The Infants Act, Notaries, Private Investigators, The Land Titles Act and amendments to facilitate the enforcement of maintenance orders with the State of Michigan, and an Act to regulate the selling of pre-arranged funeral services and plots. As well as providing funds for the expansion of our provincial police force so that it will be better equipped to deal with crime and traffic problems, you have voted monies to establish at Aylmer a police college to train law officers from the whole province. You have advanced law enforcement greatly by setting up the Ontario Police Commission. A Royal Commission is now studying all aspects of the crime situation throughout Ontario. You have provided further funds to enable the continued expansion of the Emergency Measures Organization.

A comprehensive revision of the sections of The Insurance Act dealing with life insurance has been passed and it is hoped that similar legislation will one day be in effect in all the common law provinces. The provisions enabling the irrevocable designation of a beneficiary, the eliminations of the limits placed on a child's insurance and the widening of the definition of insurable interest, bring the Act into line with modern conditions.

You have amended the province's liquor legislation to bring it into line with conditions existing today. The individual liquor permit has been abolished, as it was found to be no longer serving the purpose for which it was intended. Room service in hotels is to be permitted again, while provision is being made for sales in the tourist areas of our province. Appeals are being provided against certain decisions of the Liquor Licence Board. You have also provided a large increase in funds for the Alcoholism Research Foundation to enable it to expand its educational and research program.

Amendments were considered and passed to The Corporations Information Act to provide for the filing of up-to-date information about directors and changes in authorized capital, as well as to require all corporations to file a power of attorney appointing an Ontario representative. In order to clarify certain of its provisions and to permit an Ontario-incorporated firm to transfer its operations to another jurisdiction, you approved modifications of The Corporations Act.

As regards the province's budget, you have appropriated for all purposes the largest sum in history—nearly \$1.2 billion. Modifications were made to a number of statutes dealing with taxation. You have approved amendments to The Retail Sales Tax Act to simplify the work that has to be carried out by retailers in collecting the tax and to enlarge the scope of the exemptions. A great step forward has resulted from the coming into effect of the new Federal-Provincial taxing arrangements, which permit the province to increase its share of the personal income tax collected to 16 per cent of the Federal tax for 1962 and by one additional percentage point in each of the next four years. You have passed amendments to the provincial Corporations Tax Act and Income Tax Act to bring them into closer relationship with the equivalent Federal provisions and to remove anomalies. By approving the amendments suggested to The Succession Duty Act, you have permitted an increase of \$5,000 in the amount of insurance that may be paid a widow without the Treasury's consent, and have clarified the sections of the Act dealing with interests in expectancy. Among other tax matters, you have, by changes to The Hospitals Tax Act, increased the exemption from tax on the price of admission tickets for amusements and reduced the tax in certain categories. To bring The Provincial Land Tax Act in line with modern practices and to introduce certain principles used in municipal assessment, you have approved the complete revision of this important Act. Your amendments to The Financial Administration Act will permit a strengthening of the work of the Treasury Board. Your Government continues to be of the opinion that a comprehensive enquiry into the national tax system is required in order to arrange a distribution of tax resources between the Federal Government and the provinces in the light of modern conditions.

The House has considered, approved and voted the first funds for the Government's \$50 million program of establishing in the Queen's Park area a government centre, to which can be repatriated many government offices and workers now scattered throughout the city. The plans developed by the Department of Public Works are striking ones and will enable effective use to be made of the land purchased by the province in this area. Provision has been made for monies to undertake and complete public buildings in many parts of the province.

The Civil Servants of the province, as in past years, have faithfully and effectively discharged their duties, and appreciation is expressed to them for their work in these years when the burden of administration is steadily becoming heavier. The House has amended The Public Service Superannuation Act for purposes of clarification. In addition to the regular Government contribution to the Public Service Superannuation Fund, a special contribution of \$1 million was again made to this Fund, as well as to the Teachers' Superannuation Fund.

Redistribution has received particular attention from the Honourable Members, who have approved the formation of a special independent committee to work out this matter, taking into consideration the existing population distribution and the need for equitable representation for all our people, based on considerations of location, area and density.

The work of the various Select Committees of the House has provided much valuable information for the Members and for the Government. The Committee on Auto Insurance has presented a further report which has been implemented by way of legislation. The Crop Insurance Committee has recently presented its final report. The final report of the Select Committee on Land Expropriation will receive extensive study from various government departments in the ensuing months. The Committee set up to look into the executive and administrative problems of the government has presented a further valuable report which will receive considered attention. The first report of the select committee set up to review the various municipal Acts has been received and it will lay the

groundwork for further studies in this field by the Committee itself and by the government. The Committee set up to inquire into drug prices has been continuing its work and a report will be available at the next Session.

The program of economic development which you have approved has greatly stimulated the economy of our province and has meant high levels of employment and income. The indications are that there will be a high level of economic expansion in all of North America during the present year. With the stimulation given to business by your new measures, we can look forward to a further growth of employment opportunities and advances in our living standards.

In proroguing this Session, it is my sincere prayer that Divine Providence will bless you and guide you.

The attention of Municipal Officials, Solicitors and all other persons who may be interested in the preparation of Private Bills for submission to the Legislative Assembly of Ontario is directed particularly to the following Rules of the House governing the submission of such Bills.

RULES RE SUBMISSION OF PRIVATE BILLS

63.—(1) No petition for any Private Bill is received by the House after the first two weeks of each Session nor may any Private Bill be presented to the House after the first three weeks of each Session; nor may any report of any Standing or Select Committee upon a Private Bill be received after the first six weeks of each Session, and no motion for the general suspension or modification of this Rule shall be entertained by the House unless after reference made thereof, at a previous sitting of the House, to the several Standing Committees charged with the consideration of Private Bills upon Report submitted to two or more of such committees.

64.—(1) Any person desiring to obtain a Private Bill shall deposit with the Clerk of the House at least eight (8) days before the meeting of the House a copy of such Bill together with a fee of \$150, and if such Bill is not deposited by that time the applicant shall pay \$10 for each and every day which intervenes between the said eighth day and the date of the filing of the Bill.

(2) After the first reading of the Bill and before its consideration by the Committee to which it is referred, the applicant in every case shall pay the cost of printing the Act in the Statutes.

(3) The following charges shall also be levied and paid in addition to the foregoing:

(a) When any rule of the House is suspended with reference to a Bill or the Petition therefor, for each suspension, \$50.

(b) When a Bill is presented to the House after the first three weeks of the Session and before the end of the fourth week, \$75.

(c) When a Bill is presented after the fourth week of the Session, \$100.

(4) In case of any Bill incorporating a company or increasing the capital stock of a company already incorporated, there shall be paid to the Clerk of the House, by or on behalf of the applicant, before the same is reported to the House, the same fee as would be payable to the Provincial Secretary in the case of an incorporation or increase of capital under the provisions of The Corporations Act, less the sum of \$150 already paid to the Clerk of the House.

(5) When a Bill is for the purpose of confirming by-laws, bonds, debentures or other securities, or authority is asked to borrow money or to increase borrowing powers, the following additional fees shall be paid according to the amount of money involved:

66. All applications for Private Bills properly the subject of legislation by the Legislative Assembly of Ontario, within the purview of "The British North America Act, 1867", shall require a Notice, clearly and distinctly specifying the nature and object of the application and, where the application refers to any proposed work, indicating generally the location of the work, and signed by or on behalf of the applicants, such Notice to be published as follows, viz.:

A notice inserted in THE ONTARIO GAZETTE and in one newspaper published in the Municipality affected, or, if there be no newspaper published therein, then in a newspaper in the next nearest municipality in which a newspaper is published.

Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the Petition.

If the application is by a Municipal Corporation for authority to issue debentures, the notice shall set out the particulars of the existing debentures debt and the amount of rateable property of the Municipality according to the last revised assessment roll of the Corporation, and in brief and general terms the object for which the new issue of debentures is required.
